

**Parents of Study Hall students:** Please read over these guidelines with your student(s) so they are aware of what is expected of them during their Study Hall hour(s).

1. There will be NO cell phone usage and/or any sort of gaming devices allowed in Study Hall. These devices will be taken away for the remainder of the day if pulled out. An mp3 player with earplugs for listening to music or audio books will be an exception. **\*\*High School Students(9-12):** *iPad, laptop, or special electronic device usage for assignments, studying, or for online class-work will be allowed with prior approval only. Please notify the Study Hall monitor for this approval by filling out the approval form.*
2. Each student will need to bring something to occupy their time with during their one hour stay. For example: bring a book to read, school work, drawing pad with pencils, coloring book & crayons, knitting/crocheting projects, Solitaire card game, or any other quiet busy work to occupy yourself with for the ENTIRE hour.
3. Students will need to respect each other and may not behave in a manner that would upset other students. Remember to be kind, courteous, and respectful!
4. Space may be limited depending on the number of students in Study Hall during your scheduled time frame. So be mindful of others and their personal space.
5. Please use the bathroom before coming to Study Hall. There will be a limit to one bathroom break during the hour, in which students may go to the restroom one-at-a-time. A quick “there and back” will suffice. Roaming or goofing around in the halls or bathrooms will not be allowed.
6. Any and all issues or violations will be brought to the attention of the STEM Director and a Parent will be called immediately. Please refer to the STEM of the Triad handbook for a more detailed explanation of our expectations for your student(s) while they are here learning and having fun at STEM.

## High School Study Hall Approval Form

Dear Parents and High School Study Hall Students,

STEM Study Hall monitors understand that high school students attending study hall will need to utilize their time wisely by completing assignments and/or preparing for classes during study hall hours. We also realize that some students need to use a laptop, an iPad, or a special electronic device when completing tasks. STEM's wifi password is reserved for teacher use only. If students do not have their own hotspot for internet access, they will be able to use our guest wifi which does not require a password.

Electronic devices will be permitted during study hall hours for school purposes only!

We are trusting our high school STEM students to use their best judgment when using their devices. Breaking this agreement will result in losing the right to use these devices during study hall hours.

Read the bullet points below, sign, and return this form to the study hall monitor (in person or email) in order to use an electronic device during study hall hours.

Thank you for your cooperation!

- I agree to use my electronic devices for school purposes only.
- I will not use my electronic device anywhere else at the STEM Co-op unless given permission from another teacher.
- I understand that cell phones and gaming devices are not allowed to be used in study hall.
